BHARATH S

— Aspiring Generative AI Developer | LLM Engineer —

Kallakurichi, Tamil Nadu | +91 6379639596 | vells0659@gmail.com | linkedin.com/in/s-bharath

CAREER OBJECTIVE

Aspiring Generative AI Developer and LLM Engineer with a strong foundation in Python, Machine Learning, and Deep Learning. Focused on building intelligent applications using large language models, RAG (Retrieval-Augmented Generation) pipelines, and agentic AI frameworks. Eager to contribute to innovative product companies solving real-world challenges through AI.

TECHNICAL SKILLS

- **Languages & Programming:** Python, C, C++, HTML & CSS
- **AI / ML:** Machine Learning, Deep Learning, Generative AI, AI-Assisted Development
- **Tools & Frameworks:** SQLite, Power BI, Data Science
- **Soft Skills:** Leadership, Teamwork, Communication, Critical Thinking

EDUCATION

B.Tech, Artificial Intelligence and Data Science 2024 - 2028
AVS Engineering College, Anna University (Regulation 2021) | Semester 4 | CGPA: 8.00

HSC, Govt Boys Higher Secondary School, Thiyagadurugam 2022 - 2024
Tamil Nadu State Board | Percentage: 60.8%

PROJECTS

NeuroSign v2.0 - Real-Time American Sign Language Translation System

- Developed a real-time American Sign Language (ASL) translation web application using Python, Flask, TensorFlow, OpenCV, and pyttsx3
- Served as Project Manager and Frontend Developer in a five-member team, overseeing development and presentation

AI Exam Guardian - AI-Powered Online Exam Proctoring System

- Built an AI-powered exam proctoring system with real-time face monitoring, evidence capture, and student authentication
- Implemented using Python, Flask, OpenCV, FastAPI, and SQLite to secure online exam environments

Zero to Hero - AI-Powered Learning Platform

- Created a full-featured React.js platform with skill curricula, an integrated code editor, quizzes, and a leaderboard
- Integrated a Claude AI tutor panel with OTP-based login for a complete interactive learning experience

INTERNSHIP & TRAINING

Data Science Training Intern | Imagecon Technologies

- Gained hands-on experience in data analysis, data visualization, and predictive model building

CERTIFICATIONS

- **IBM SkillsBuild** - Introduction to Generative AI
- **IBM SkillsBuild** - Introduction to Artificial Intelligence
- **Gen AI Networks** - Power BI for Data Analytics
- **CSC** - Higher Diploma in Computer Applications (HDCA)

ACHIEVEMENTS & ACTIVITIES

- **100% Attendance, AVS Engineering College** - Maintained perfect attendance throughout Semesters 1 to 4, demonstrating consistent discipline, punctuality, and commitment to academic excellence
- **College Symposium** - Presented the Real-Time Sign Language Project at AVS Engineering College Symposium, demonstrating real-time ASL translation using computer vision and deep learning
- **Workshops Attended** - Role of AI in Future Technology, and Cybercrime / Cybersecurity, AVS Engineering College

INTERESTS & LANGUAGES

- **Interests:** Generative AI & LLMs, Quick Learning, Tech Product Building, Technology Films & Podcasts, Open Source Exploration
- **Languages Known:** Tamil, English
